

The Doe Fund

Young Professionals Council

Mission: The Doe Fund's Young Professionals Council (YPC) is an action-oriented group charged with supporting the *Ready, Willing & Able* program through philanthropic activities and by raising the program's public profile.

Our aim is to build a strong and structured Council with clear and attainable goals that will set us up for success to support The Doe Fund's primary needs. As such, our main goals for the YPC will be to:

Goal #1: Promote and attend Doe Fund events to help power The Doe Fund's fundraising efforts

What this means for the YPC: We have a great communications team creating content you can share and distribute to your networks to help drive attendance and in turn, help fundraise. We are targeting \$1,000 raised per YPC member annually.

Goal #2: Volunteer regularly

What this means for the YPC: The Doe Fund provides ample volunteering opportunities. We encourage YPC members to take advantage of them as they are a great way to give back to and have an impact on the Men in Blue. We are targeting 15 hours per YPC member annually.

Goal #3: Raise awareness for the Doe Fund and its mission

What this means for the YPC: Talk about the Doe Fund with your friends, colleagues, and family to raise awareness and get others involved in the form of corporate partners, individual donors, and more YPC members. With a larger YPC network we can increase our reach and impact to help drive the mission of the Doe Fund forward.

Joining the Council: We're always looking for more members! You can request to join by reaching out directly to the Council Co-Chairs or The Doe Fund's Development Office.
